| <p>MATH- We will have our geometry test part two on Wednesday. It will cover quadrilaterals and circles. It will come from their notes.</p> <p>Part 3 of our geometry unit will cover: three -dimensional figures, finding missing degrees of triangles, classifying triangles and quadrilaterals as similar or congruent, identifying and describing by faces, edges, vertices and congruent parts. Finding degrees using a protractor.</p> | <p>SOCIAL STUDIES-50 states and capitals</p> <ul style="list-style-type: none">* finished our kahoot review games (daily grade). These can now be played at home to help review for daily grades.* students have started on their independent state reports. They have done a rough draft and will be creating a website with their information. Students have been given a handout of exactly what needs to be included in the website.it is 12 pages long I will use a rubric for grading. This website will count as a major test grade* our next project will be to create their independent state drawings.*We will then be creating QR codes for an amazing race with younger grades. |
| <p>SCIENCE-We will return to Science around the 25th of April.</p> <p>Reminders:</p> <ol style="list-style-type: none">1. There were 4 of you that paid for Wednesday of last week (10-14) on our weather day. I will carry that over into this week (17-21). Please note that when sending in your lunch money for the week. | <p>*** States and Capitals quiz part 2 on Wednesday. States 1-24.</p> <p>*** second chance on us map/states on Wednesday.</p> |
