

NEWSLETTER FOR MARCH 27-31 MRS. CHAPPELL

<p>Math- We will continue working in our Geometry unit. Our first test is Wednesday, March 29th. It will cover the following. Notes , foldables and examples should be in their notebook. Lines, Line segments, point, ray, perpendicular lines, parallel lines, intersecting lines, vertices, rays, polygons-definition, 3 sided to 12 sided names. We will then continue into Triangle specific names and quadrilaterals and the types of quadrilaterals. . Our next test will be announced on next week's newsletter.</p>	<p>Social Studies- We will be finishing out our school year with several in class projects based on the 50 states. Students will be put into different groups and complete different assignments and projects. Some will count as a test grade and some as a Daily grade. I will keep put more details in my weekly lesson plans There will be no study guides or written tests at this time. All grades will be given through the work that they complete correct. Rubrics will be used for grading (I will give them each a rubric so they can see what i will be looking for in their grading. details each week will be placed in my lesson plans.</p>
<p>Science- We will pick back up on Science in another week and do mini units throughout the remainder of the year along with social studies. We will try to have each subject at least two days per week. There will be study guides and written tests in Science. I will put more details on the weebly as we get to each mini unit.</p>	<p>Reminders:</p> <ol style="list-style-type: none">1. Field trip Tuesday the 28th.
