

Newsletter for May 1-5 Mrs. Chappell

<p>Math- We will be testing Tuesday of this week. It will cover 3 dimensional figures, singular and congruent figures and protractors. I went over their notes with them on Thursday of last week and had them highlight what they need to know. We will be reviewing again on Monday.</p> <p>** Their 14 x 22 white posterboard and black sharpie is needed by Wednesday of this week. We will be starting our Tessellation study and art project.</p> <p>** When we finish this project we will be moving into our final project of the year. Students will be building a Geo-City in small groups using everything we have learned about Geometry during this last month. More details in Friday's Newsletter.</p>	<p>Social studies- We will be finishing up our State/Capital unit this week by completing our QR code activity with the lower grades. This will also be our final daily grade on all 50 states and capitals.</p> <p>This will be our final (#5) us map and states test. Any student that has not taken this test must take it on Wednesday and that test grade will count.</p>
<p>Science- We will be starting a unit on our human body using the book The magic school bus inside the human body. It will last about two weeks with a vocabulary test at the end. Students will keep up with their handouts and at the very end, this will be for a grade. They will also create a mini book of what they learned and this too will be for a grade. I will post vocabulary test date on next week's newsletter.</p> <p>With Spring Fling practice this week, We may end up moving the start of this into the next week. It just depends on how our QR code activity goes, math, and practice for the spring fling.</p>	<p>Reminders:</p> <ol style="list-style-type: none">1. Lunch money due on Monday2. Spring Fling is Friday (see all your emails from Mrs. Kelly for more details).3. Spring Fling t-shirt money is due now. T-shirts will be given out for students to wear on Friday.
