

Newsletter for March 13-17 Mrs. Chappell

<p>Math- We will begin our geometry unit on Monday. I will split it into two, possibly three parts with a test on each part. Our first part will be the easiest. They will have foldables and samples in their notebook as well as IXL to go along with it. We will test the Wednesday we return from spring break. We will review that Monday and the beginning of class on Wednesday before the test. I have listed the standards for the 4th 9 weeks on renweb and will get it on the weebly. Students will be doing an in class project toward the end of the year for a test grade. They will work on in the classroom each day in small groups.</p>	<p>Science- We are finishing up our unit on force and motion. Students have finished their lapbook and have everything they need to study for their test next Wednesday. The lapbook will be for a daily grade and taken up on test day. Beginning on Monday, Students will be creating simple machines in small groups using the make space lab. They may ask to bring certain items from home to use in their creation. We will video each group showing their machines and how they are used towards the end of the week.</p>
<p>We will return to Social Studies after spring break. Students will be doing several different projects incorporating technology.</p>	<p>Reminders:</p> <ol style="list-style-type: none">1.
